Career Objective

To build healthcare-based AI systems like Disease Prediction to improve early diagnosis and patient care.

Education

B.E in Artificial Intelligence and Deep Learning

Jain University (2022–2026) | CGPA: 8.6

Technical Skills

Python, Machine Learning, Deep Learning, TensorFlow, Data Analysis

Projects

Disease Prediction – Built a predictive model using machine learning algorithms to identify diseases based on symptoms and medical data.

Strengths & Soft Skills

Problem-solving, analytical thinking, teamwork

Certifications

Deep Learning Specialization, AI Certification

Internships

Machine Learning Intern – Worked on healthcare datasets and predictive modeling

Declaration

I hereby declare that the above-mentioned details are true to the best of my knowledge.
